

My Pledge to you:

- I believe both Platform and our Plan for Financial Responsibility are important to Secaucus. I will take steps to implement them over the next four years.
- I will use my accounting background to find ways to cut the budget, increase efficiency, implement accountable cash controls, scrutinize every contract, and reorganize the tax collector's office to insure our resident's tax payments are safe and secure.
- I will work with incoming Mayor Mike Gonnelli to maintain the high level of services our residents have come to rely upon for over 25 years.
- I will continue my youth and charitable activities as I have for years, not just because I'm a candidate.
